Withdraw a Proposal

Withdraw a Proposal Introduction

If NSF has not made a funding decision on a proposal, you may withdraw it through FastLane.

If NSF has made a funding decision on a proposal and you then try to withdraw it, a screen displays with a warning that this action is not allowed. You must then contact your NSF Program Officer for assistance to withdraw the proposal.

When you withdraw a proposal, you must select the type of withdrawal:

- Withdrawal of a duplicate proposal, in which case also give the Proposal Number of the proposal you want NSF to retain
- Withdrawal because of funding received from elsewhere
- Other type

NSF also requests that you provide a detailed reason for the Proposal Withdrawal.

If you are withdrawing the lead or non-lead proposal from a collaborative proposal, NSF does the following:

- Withdraws the entire collaborative proposal
- Notifies the PI and SPO of the organizations for the other proposals that:
 - The collaborative proposal has been withdrawn.
 - They must submit a new collaborative proposal for NSF to consider the project.

For withdrawing a proposal, the PI can:

- [Initiate a Proposal Withdrawal](#)
- [Forward a Proposal Withdrawal to the SPO](#)

The SPO can:

- [Initiate a Proposal Withdrawal](#)
- [Submit a Proposal Withdrawal](#)
- [Submit a Proposal Withdrawal forwarded by a PI](#)

Principal Investigator (PI) Information

Notice: Effective January 14, 2013, the National Science Foundation implemented revised merit review criteria based on the National Science Board (NSB) report, National Science Foundation's Merit Review Criteria: Review and Revisions. While the two merit review criteria remain unchanged (Intellectual Merit and Broader Impacts), guidance has been provided to clarify and improve the function of the criteria.

Revisions based on the NSB report have been incorporated into the Grant Proposal Guide (GPG), including the [Project Summary Section \(opens new window\)](#) and [Project Description Section \(opens new window\)](#). Now, if the Project Summary requirements are not met, the proposal will not be accepted by FastLane or will be returned without review. The GPG also states that the Project Description must now contain, as a separate section within the narrative, a discussion of the broader impacts of the proposed activities.

These requirements should be carefully considered by PIs when preparing proposals for submission to NSF.
